#### **OZONE**

OZONE WIRELESS CHARGING PAD WITH DUAL OUTPUTS

8,9 x 8,9 x 0,9 cm

ABS Plastic.

A wireless charging pad is a small disc that you place your phone on to charge the battery. It's not entirely wireless since the charging pad needs to be plugged into a wall outlet, but you no longer need to connect your phone to a cable. Wireless charging pads come in a variety of colours and materials.

#### **RUSTIC**

RUSTIC WIRELESS CHARGING PAD

ø 9,5 x 0,6 cm

ABS plastic.

#### **METEOR**

METEOR QI WIRELESS CHARGING PAD

© 7 Ø 9,7 x 0,9 cm

ABS plastic.

Qi (pronounced "chee") is the universal standard for wireless power transfer. More than 70 phone models from major manufacturers are Qi-enabled.

### Drinkware Insulation Chart

Based on successful retail drinkware pieces, we have designed a better way to drink with style. Whether you prefer your beverage HOT or COLD

Insulation refers to how the materials and construction prevent temperature change – basically, the ability of a piece to keep a beverage at its original temperature, whether it's hot coffee or ice water. Insulation is achieved through double-wall construction, which has two purposes – to eliminate condensation from cold beverages on the outer wall and maintain the temperature of the beverage within the inner wall.

There are several types of insulation, and we offer them all. It just depends on your budget and the type of performance you're looking for.

Hours indicated may vary depending on item construction, material, ambient conditions, and use.
